

REMARKS

Contrary to the objection raised in the Notice to file Missing Parts mailed June 15, 2004 (the "Notice), Figure 11b has not been omitted. In fact, what was labeled as Figure 12, is Figure 11b. The description of the figure legend as originally filed properly referred to Figures 11A and B, however for further clarification, the figure legend has been expanded on to identify what is represented in each of Panels A and B.

Figure 12 had been inadvertently omitted from the application as filed. However, support for Figure 12 can be found in the specification as filed, and as such submission of Figure 12 does not constitute new matter. Figure 12 graphically demonstrates the results of the studies conducted in Example 6.7 (*see*, the instant specification at pp. 185-190). Specifically, variant Fc regions were subcloned into a mammalian expression vector, containing the heavy chain of the anti-fluorescein monoclonal antibody 4-4-20. The variant 4-4-20 heavy chains were transiently co-expressed with the light chains clones in the human kidney line (293H). Supernatants were then analyzed using an ADCC assay. Figure 12 is a graphic representation of these results, however these results are also numerically disclosed in the specification as filed in Table 11 (*see*, p. 189 of the instant specification). Applicants respectfully submit that the material in Figure 12 of Replacement Sheet 24 is disclosed in the specification as filed. Accordingly, Figure 12 does not constitute new matter and is fully supported by the application as filed.

IN THE FIGURES

In order to be in compliance with 37 C.F.R § 1.84 and § 1.121, replacement drawings on 50 Replacement sheets are submitted for all the figures.

CONCLUSION

Replacement of the drawing sheets with the Replacement sheets submitted herein are respectfully requested. It is further requested that the application publish with the allowed Replacement Sheets.

No fee is believed to be due in connection with the filing of this response, Should any fee be due, however, please charge the required amount to Jones Day Deposit Account No. 50-3013. A copy of this paper is enclosed for accounting purposes.

Date: October 15, 2004

Respectfully submitted,

Margaret B. Brivanlou 40,922
